City of Regina

THE first settlers of the District arrived in May, 1882, and subsequently a canvas town sprang up where the trestle bridge carries the main track of the C. P. R. across Wascana Creek, about a mile west of the centre of the city.

The selection of the townsite of Regina was arranged jointly by the Government and the C. P. R. Company. Early in 1883 an officer of the North-West Mounted Police was sent to select a suitable place for the headquarters of the force, which had previously been at Winnipeg. On his return the lands at present occupied by the barracks were selected.

At this time an agreement had been completed between the Dominion Government and the Railway Company to enter into partnership regarding certain townsites, one of which was to be the seat of Government for the North-West Territories. Acting under this agreement the General Manager of the Railway Company, then W. C. Van Horne, and Mr. Dewdney, the Governor of the Territories, selected four sections, viz.: 19 and 30, township 17, range 19, and 24 and 25, township 24, range 20, west of the second meridian, to constitute the townsite of Regina. These sections were subsequently vested in Messrs. Osler, Scarth, Smith and Angus, trustees, to administer and

divide the net proceeds between the Dominion Government and the Railway Company.

The name "Regina" was conferred on this townsite by the Governor General Lord Lorne, who had been requested to select a name for the future capital.

The arrangement for the control of the townsite by the townsite trustees was terminated by Order in Council of 29th December, 1900, and by further Order in Council of 6th April, 1903, the granting to the Municipality of the lots in the townsite which had reverted to the Crown, was authorised.

By Order in Council, 27th March, 1883, the Town of Regina was declared to be the seat of Government of the North-West Territories in place of Battleford.

The first school was opened in the town in the spring of 1883; the first Dominion Lands Office, a low frame building, was brought up on a flat car from Troy (afterwards called Qu'Appelle) and was placed at the corner of Broad Street and Victoria Avenue.

In April, 1883, a public meeting was held to discuss the matter of the site of the proposed post office, the site finally selected being on Victoria Avenue.

Up to March 7, 1883, when the round-house was burned, Regina had been a divisional point of the C.P.R., but after that date the headquarters of the division was moved to Moose Jaw.

On 13th May, 1883, Lieutenant Governor and Mrs. Dewdney arrived to take up residence in Regina, and were met on

their arrival by a large number of citizens, and His Honor was presented with an address.

On July 1, 1883, Regina was made a Money Order Point. Lots on South Railway Street changed hands at \$800 to \$1,000 each. A public meeting and a citizen's committee was formed to carry on the business of the town. Mr. John Secord, barrister, was appointed Secretary, Sub-committees were appointed on Finance, Sanitation, Fire and Water and Miscellaneous Affairs. A committee was also appointed to draft a charter of incorporation, and the Finance Committee were instructed to collect \$2,000 by public subscription for public works.

Elections for the North-West Council were held in August, 1883. Mr. William White was selected for the Regina District. The Fifth Council of the North-West Territories was opened by Lieutenant Governor Dewdney on August 22, 1883. A bill entitled "An Ordinance Respecting Municipalities" was introduced in the North-West Council on September 12, 1883, and a public meeting of citizens was called to discuss the matter of incorporation.

In October, 1883, a lot on Eleventh Avenue near Rose Street was sold for \$275. At this time farm lands in the vicinity of the city were worth about \$5 per acre.

On Monday, October 8th, the Civic Council met and took final steps to comply with the Ordinance to provide Municipal Government. The Government

Buildings, Council Chambers and Indian Office on Dewdney Street were completed in October. The first telephones privately owned were introduced into the town at this time.

Up to December, 1883, Regina had two chartered banks, the Bank of Montreal and the Merchants Bank. It was, however, found that there was not enough business for two banks, and the Merchants Bank was therefore withdrawn.

Nominations for the first municipal elections took place on January 3, 1884. Two hundred and thirteen votes were polled, and the following were elected: J. W. Smith, J. A. Kerr, J. D. Sibbald, James Hambley, Daniel Mowat, W. H. Gibbs, Mr. D. L. Scott, now Judge of the Supreme Court of Alberta, was the first mayor.

Regina was incorporated as a City on June 19, 1903, and is now the Capital and Seat of Government of the Province of Saskatchewan. The Parliament Buildings, the erection of which was commenced in the fall of 1908, stands in its own grounds of about 160 acres, south of Wascana Lake and within the city limits.

It has well been said that there are no Parliament Buildings more dignified or better adapted to the needs of legislative work than those of the Saskatchewan capital.

The building is constructed of Tyndall stone, fireproof throughout, and was erected by Peter Lyall & Sons of Montreal,

at a cost of approximately \$1,900,000, the erection being commenced in the fall of 1908, and the Departmental Offices occupied in the fall of 1910. The length of the building is about 543 feet, and the height of the dome approximately 187 feet. The central portion is 98 feet in width and 267 feet in depth with a wing on either side, each 222 feet long and 72 feet in depth.

The City Council is composed of a Mayor and ten Aldermen. The Mayor is elected annually by a vote of the entire City, and commencing with the Municipal Election of December, 1914, the Aldermen have also been elected from the City at large. Prior to that time they were elected annually from the five wards of the City, two representatives to each ward. The Bylaw making this change was ratified by the electors on the 10th of August, 1914, and provided for the abolition of the ward system and for the reversion to the system of the election of Aldermen by a general vote of the electors.

Regina is unquestionably the financial centre of the province, and its development in this respect is very remarkable. Eleven of the leading Canadian Banks now have branches in the city, and the majority of them have erected substantial and elaborate offices of their own.

The Bank Clearing House Association was established and commenced business on first October, 1909.

The Bank Clearings have been as follows:

1910 ...\$ 50,739,159.	
1911 ... 73,032,088.	Increase ..\$22,292,929
1912 ... 115,727,648	Increase .. 42,695,560
1913 ... 132,087,457	Increase .. 16,359,809
1914 ... 98,205,541	Decrease . 33,881,916
1915 ... 87,122,611	Decrease . 11,082,930
1916 ... 124,349,589	Increase .. 37,226,978
1917 ... 169,800,113	Increase .. 45,450,524
1918 ... 184,624,631	Increase .. 14,824,518

Regina is the tenth City in the Dominion as regards Bank Clearings.

Practically every loaning institution of importance in Canada has an office in the city, many of them occupying their own building.

A very large volume of business is transacted in the purchase and sale of bonds and debentures of the municipalities and school districts of Manitoba, Saskatchewan and Alberta, the City being the headquarters of Western Canada for this class of business. As an indication of this it may be said that the authorizations granted by the Local Government Board for the issue of Municipal, School and Rural Telephone Debentures in Saskatchewan alone for the first eleven months of 1918 amounted to \$1,891,752.

Regina is justly entitled to be termed the best served Railway City in Western Canada. Twelve lines of railway radiate in all directions from the City and the C.P.R., C.N.R., and G.T.P. vie with each other in their endeavor to give Regina an excellent train service.

The Great Northern Railway has direct communication between Regina, Minneapolis, St. Paul and other Southern Cities,

over the G.T.P. Railroad Boundary Line. In addition to the lines in operation, bonds have been guaranteed by the Provincial Government for ten additional branch lines which, when completed, will make a total of 22 railway lines radiating in all directions from Regina. A new Union Depot for the C. P. R. and C. N. R., thoroughly modern and up-to-date in every particular, has been erected and is now in use, but the C.N.R. has acquired considerable property in the east end of the City and it would seem probable that this Company will erect a Passenger Depot of its own in the near future.

The G.T.P. plans under way include the erection of a Station, a magnificent Hotel, Power House, Laundry, Train Sheds and Underground Tunnel, to cost in all approximately \$2,000,000. The foundation and steel work for the Hotel has been started.

Owing to its geographical situation in the heart of the grain growing district of Western Canada and with unequalled railway facilities, Regina is the largest distributing point for agricultural implements in the world, and practically every Canadian and American Implement Manufacturing Firm of any importance has its agency in the City.

The official estimate of the value of goods shipped from Regina in 1913 was over \$20,000,000 in agricultural implements and approximately \$40,000,000 for wholesale distribution generally.

The advantages for the distribution of other lines of goods are on a par with

those for agricultural implements, and Regina has a large number of manufacturing concerns, some 114 wholesale and over 360 retail houses.

During 1915 the Robt. Simpson Western Limited, acquired two blocks of land in the City's warehouse area and erected a building costing some \$300,000, which it proposes to extend to double its present capacity. It carries on a Mercantile Mail Order business and will conduct such other Mercantile or Manufacturing business as may subsequently appear expedient. The Company employed during the first year an average of 300 employees and now employs some 930 hands.

The Imperial Oil Company, early in 1916, secured some 50 acres of land adjoining the City whereon they have erected an oil refining plant which cost far in excess of \$500,000. Further large expenditures in the plant in the near future are in contemplation. The Company employs some 250 hands. Last year this Company purchased a Block of land and erected thereon some 30 attractive modern houses for its employees, and practically all of these houses are occupied.

During 1916 new warehouses were also constructed by the Prairie Biscuit Co., The Canada West Electric Limited, and the Canadian Consolidated Rubber Company. Warehouses were also secured by other concerns, chiefly The McDonald Company, wholesale grocers; The Chevrolet Company, automobiles, and The Pat Burny Company, meat packers; The Auto Service Company, and The Producers' Commission Company, Limited.

In 1917 the T. Eaton Company, Limited, purchased from the City two Blocks of land on which they have erected a new Mail Order House which cost some \$500,000. In the beginning the Company proposes to handle the heavy lines of goods which it sells and it employs some 70 hands. The Company's plans provide for the addition of a retail store in front of the warehouse when business warrants.

Already this year properties have been purchased by the Robert Bell Engine and Thresher Company, Limited, the McNall and Company, and the Winnipeg Ceiling and Roofing Company, Limited, each of which is erecting a new warehouse. Announcement has been made of the purchase of 40 acres by the Continental Oil Company for the purpose of constructing a Refinery at a total cost of about a million dollars. The Regina Tire and Repair Company propose to erect a building on Hamilton Street on property recently purchased. The Coca-Cola Company is undertaking the construction of a factory. The International Harvester Company is arranging for a new large warehouse and other warehouse construction is expected.

(For further information respecting this warehouse area, see page 59.)

The City is a firm believer in Municipal Ownership and owns its Street Railway, of which it has some 30 miles constructed within the City Limits; Light and Power Plant supplying cheap light and power and water systems, the water being obtained from springs distant some eight miles. With regard to the two last

mentioned utilities, the City has planned the expansion of the present system so that when complete they will provide for a population many times the number of the present one, supply sufficient power and provide adequate fire protection throughout the City.

In connection with cheap power the City in 1914 entered into an agreement with Messrs. Coste & McAuley for the supply of Natural Gas. Under this agreement the City would arrange for the distribution of the gas within its limits, retaining full control of the utility as it has done with its other utilities.

During 1914 the City extended its Municipal Ownership still further by the establishment of a Municipal Stock Yards on a scale sufficiently large to accommodate all the Live Stock raised in the Province. The yards were opened in September, 1914, and considerable business has been carried on. The ultimate aim of the City, however, is the provision of an up-to-date Stock Yard to furnish a good market for all stock raised in the Country tributary to the City. In this connection the Pat Burns Company are expected to make extensive improvements to their Abattoir and other property they already have here.

Regina is also the headquarters of the Saskatchewan Co-Operative Elevator Company and the Grain Growers' Grain Company, both of which have been of remarkable benefit to the farmers, and agriculture generally.

The City's Public Market, under the

control of the Local Council of Women, contributes in no small measure to the welfare of the residents of Regina and to the people in the districts surrounding the City, in providing an open market for the sale and purchase of all kinds of supplies at first cost.

As a residential centre Regina offers every inducement to the homeseeker. In this respect it has been referred to as "the City of Beautiful Homes."

From the educational and social points of view, the City also offers every advantage. With a population of about 40,000 the City has the Regina College, St. Chad's College, the Provincial Government Normal School, all carried out in Gothic treatment, and a Collegiate Institute of classic design. A magnificent College is projected by the Presbyterians, their scheme including the purchase of some three or four hundred acres of ground on which to erect College buildings at a cost of about \$1,000,000, also a Hospital and other buildings in connection with the same. This will make provision for the education of both sexes. The Roman Catholics have also expressed their intention of erecting a substantial College. From these points it will be seen that the City, although not fortunate enough to possess the Provincial University, may claim to be the educational centre of the Province. In addition to the above, there are some 16 Public and Separate Schools, 29 Churches, Y.M.C.A., Y.M.C.A. Military Hut, and Y.W.C.A., two Public Hospitals and several Private

Nursing Homes; a Public Library with two branches; several Business Colleges and numerous Societies for the advancement of Art, Music, Literature and Science; one daily Morning Paper, one daily Evening Paper, two weekly papers and several monthly trade publications.

As to amusements, the City has a first-class Theatre, and plans for the construction of another are under way. There are also some four Moving Picture Theatres. The lake adjoining the Parliament Buildings offers facilities for boating, bathing and skating. Many fraternal Societies and other Organizations exist, devoted to amateur theatricals, cards, debates, etc. The City is within easy distance of Last Mountain and Katepwa Lakes, two of the beauty spots of the Province and delightful holiday resorts, offering unequalled facilities for bathing, fishing and boating.

Regina is the best paved city in Canada for its size, having some 31 miles of paved streets, 75 miles of graded streets, 42 miles of granolithic and 72 miles of plank sidewalks. The City also has some 70 miles of sewer with 6,237 connections; some 73 miles of water mains with 515 hydrants and 3,948 house connections; four fire stations with some 35 firemen and a full equipment of the most modern fire fighting apparatus, some 257 acres of parks, a trunk sewer and sewage disposal works and an incinerator plant for the disposal of garbage.

Regina's Municipal Buildings would do credit to a far larger City. The funds for their erection have been to a great

extent provided by the sale of the town-site lands, yet the City still possesses an asset in its unsold warehouse property which is assessed at some \$2,112,030.

Regina is also the headquarters of Military District No. 12 which comprises the Province of Saskatchewan. This adds much to the business and social life of the City. Further details as to the Officers comprising the staff and units in the garrison will be found on page 107.

MAYORS OF THE TOWN OF REGINA

From the Date of Its Incorporation as a
Town in the Year of 1883 to the Date of
Its Incorporation as a City, June 19, 1903.

MEETINGS OF COUNCIL

The first Meeting of the Council in each year is held on the first Monday in January, except when that day is a public holiday, in which case the Meeting takes place on the next subsequent day which is not a public holiday; and the Council of the previous year holds office until the new Council meets.

The subsequent regular Meetings of Council are held on the first and third Tuesdays in each month throughout the year at 7.30 p.m.

Special Meetings of the Council may be called by the Mayor whenever he deems it expedient, and he may do so when requested in writing by a majority of the Council.

A majority of the whole Council constitutes a quorum.

ORDERS OF THE DAY

The "General Orders of the Day" at each Meeting are as follows:

- (1) Confirming Minutes of Last Meeting.
- (2) Original Communications and Petitions.
- (3) Presentation and Consideration of Committee Reports.
- (4) Presentation and Consideration of City Commissioners' Report.
- (5) Inquiries and Answers thereto.
- (6) Motions.
- (7) Giving Notice.
- (8) Introduction and Consideration of Bills and Bylaws.
- (9) Unfinished Business.

COMMITTEES OF COUNCIL

At the beginning of 1916 the Council abolished the various Standing Committees and substituted therefor a Special Committee consisting of all the members of Council with the Deputy Mayor as Chairman. This Special Committee meets every Friday evening at 7.30 o'clock and undertakes the duties and performs the functions of all the former Standing Committees.

Sub-Committees are appointed from this large Committee from time to time for the purpose of considering and reporting upon particular subjects and on any matters which may be referred to them.

CIVIC OFFICIALS

Mayor—H. Black.

Hours at City Hall from 10 a.m. to
11 a.m. daily.

Office Phone 3619.

Residence—2322 St. John Street.

Phone, 3169.

City Commissioner—

L. A. Thornton.

Office Phone 3096.

Residence—2341 McIntyre Street.

Phone, 3881.

City Solicitor—

G. F. Blair, K.C.

Office Phone 2399.

Residence—2257 McIntyre Street.

Phone, 4742.

City Clerk—

G. Beach.

Office Phone, 3615.

Residence—Suite 20, Crescent Annex
Apartments.

Phone, 6198.

City Treasurer—

John E. Snowball.

Office Phone, 3613.

Residence—2831 Regina Avenue.

Phone, 2351.

City Assessor—

R. J. Westgate.

Office Phone, 3614.

Residence—2142 McIntyre Street.

Phone, 3778.

Acting City Engineer—

D. A. R. McCannel.

Office Phone, 3616.

Residence—1617 Fifteenth Avenue.

Phone, 3437.

Assistant City Engineer—

R. W. Allen.

Office Phone, 3616.

Residence—1441 Myra Street.

Medical Health Officer—

M. R. Bow, M.D.

Office Phone, 3617.

Residence—Suite 19, Crescent Annex
Apartments.

Phone, 4201.

City Auditors—

Messrs. Gladwell, Wilson & Co.

Office Phone, 3627.

Chief Sanitary Inspector—

J. A. Bertwistle.

Office Phone, 3617.

Residence—2632 Victoria Avenue.

Superintendent Light and Power—

E. W. Bull.

Office Phone, 3612.

Residence—2112 Rose Street.

Phone, 3651.

Superintendent Street Railway—

D. W. Houston.

Office Phone, 3626.

Residence—2246 Cameron Street.

Phone, 3279.

Superintendent Waterworks—

J. M. MacKay.

Office Phone, 2403.

Residence—2844 Rae Street.

Phone, 2750.

Building Inspector—

O. T. Falls.

Office Phone, 2419.

Residence—2354 Cornwall Street.

Phone, 3448.

Superintendent Parks—

E. Venzke.

Office Phone, 2419.

Residence—Corner Fourth and Broad.
Phone, 5076.

Chief of Fire Brigade—

W. A. White.

Jas. J. Raven.

Residence—873 Robinson Street.

RECORD OF CIVIC STAFF DURING WAR ON ACTIVE SERVICE OVERSEAS

During the War an Ex-Mayor, 5 ex-Aldermen and 192 members of the Civic Staff enlisted as Volunteers in the Overseas Expeditionary Forces. The latter figure represents 50 per cent. of the average number of employees on the Civic Payrolls for the years 1915 to 1918.

Our Casualty List to date is as follows:

Killed in Action	26
Died of Wounds	2
Died from Natural Causes while Overseas	5
Wounded	50

The profound sympathy of the present Civic Staff including those who were compelled to remain behind goes out to the sorrowing relatives of the brave men who have made the supreme sacrifice on the battlefields of Europe in the cause of Liberty, Justice and Civilization.

The Staff is proud of the record of its fellow members who went to the Front and particularly glad to know that six of them have been decorated for conspicuous bravery in action while another has been promoted on the Field.

Our best wishes are extended to those members who are yet to return.

MILITARY SERVICE ACT

With reference to Civic Employees who came within Class 1 of "The Military

Service Act" a return made to the Local Registrar on April 20th, 1918, showed that the Staff generally had made an excellent voluntary response to the call for men. Out of the whole of the then present Civic Staff it was found that there were only 39 men affected. Of these 24 were of the Fire and Police Departments. Almost all of the Firemen tried to enlist under voluntary enlistment but were rejected on medical grounds and were subsequently employed by the Department on that account. Upon examination under The Military Service Act these men were placed in either categories "C" or "E." Those of the Police Department who were not found to be in category "C" or lower, were exempted on grounds that their positions were of national importance and some of them were coupled with domestic reasons. The latter were the only employees whose exemptions were supported by the City. No exemption whatever was asked for in the case of any one of the other Civic Departments. Except in one instance the remaining 15 members of the Staff affected by the Act were found to be in categories "B" to "E."

When it is remembered that a total of 192 members of the Civic Staff had already volunteered and that at the date last mentioned the total number of employees of both sexes and of all ages was some 360 it will be seen that the Civic Staff generally made a remarkable showing in the matter of Military Service.

ENLISTMENTS FROM CITY AS A WHOLE

The citizens of Regina as a whole have freely offered their services for their Country. According to the records of Military District No. 12, almost 6,000 local men had up to 26th April, 1918, enlisted in the under-mentioned units which were recruited either wholly or in part in Regina. It is estimated that with the men who have enlisted with Winnipeg and other outside battalions, the total enlistments would be about 6,500:

1st C. M. R.	4
9th C. M. R.	7
10 C. M. R.	7
3rd Field Ambulance	7
10th Battalion	2
P. P. C. L. I.	59

FIRE DEPARTMENT

The Fire Department is under the control of the City Council. It consists of one Chief and 35 paid members; has the most modern and up-to-date fire fighting apparatus, and is an efficient and capable brigade.

Central Fire Hall—Headquarters: 1825-1839 Hamilton Street. Phone 99 for Fire. Phone, Chief's Office, 5101. Equipped with all Motor Apparatus as follows: One Chief's Auto, one Motor Hose and Chemical, one Motor Chemical Engine, one Motor Pumping Engine and Hose Wagon, one Motor 75 foot Aerial Ladder Truck.

No. 2 Hall, Phone 3322—Corner Scarth Street and Eighth Avenue, equipped with one Hose and Chemical Wagon, one 60 foot Ladder Truck.

No. 3 Hall, Phone 5363—Corner Robinson Street and Fourteenth Avenue, equip-

ped with one Hose and Chemical Wagon, one City Service Ladder Truck.

No. 4 Hall, Phone 2334—Corner of Winnipeg Street and Victoria Avenue, equipped with one Hose Wagon.

Chief of Department—W. A. White.
Residence, 2075 Hamilton Street.
Phone, 3318.

There are 515 Fire Hydrants in the City and 47 Fire Alarm Stations. Always when using the telephone in case of fire ring 99. Keep cool, speak slow and plain and give name of street and block number.

FIRE ALARM BOXES AND DIRECTIONS FOR USING

The telegraph fire alarm is the quickest way to notify the fire department of a fire.

Use the fire alarm boxes for a fire whenever possible.

The key is always in the box. To reach the key, break the small glass, turn the key to the right and pull door open. Inside will be found a hook near the top of the box, which must be pulled down once and let go.

Wait at the box until the fire department arrives, and direct the firemen to the fire.

Situation of Boxes

5. South Railway Street and Broad St.

64. Athol Street and Ninth Avenue.
65. Exhibition Grounds.
67. York Street and Eleventh Avenue.
71. Dewdney Street and Armour Street.
82. Montague Street and Sixteenth Ave.

Any person sending in a false alarm of fire or interfering with the fire alarm is liable to a fine of \$50.

FIRE PREVENTION

Bylaw No. 839 passed by the City Council in 1915, has for its object the prevention of fire within the City Limits and the safeguarding of Life and property against fire. "Conservation," the official organ of the Commission of Conservation of Canada, has commented very favorably upon this bylaw. It made particular reference to the sections of the bylaw dealing with the handling of rubbish, the disposition of hot ashes and the prohibition of lighted bonfires within the city limits without a permit from the Fire Chief. The Fire Chief reports that the citizens have taken kindly to the inspection work carried out. In many cases they welcome the men who are able to give advice on prevention of fires. The Fire Department seeks the co-operation of the citizens in its work to prevent fires and reduce the fire loss.

REFUSE DISPOSAL SYSTEM

Regina has now in operation one of the most modern Refuse Disposal Plants on the continent. All refuse collected from the City is hauled to a Central Transfer Station, where it is loaded into steel dump cars. From the Transfer Station, which was specially constructed for this purpose at a cost of \$20,000 the refuse is transferred over the Street Railway to the Incinerating Plant at the Disposal Works, a distance of two and a half miles. The Incinerating Plant, recently constructed at a cost of \$64,000, has a capacity of 110 tons per 24 hours and is modern in every particular. It is proposed to utilize the steam generated at the plant to drive the pumps at the Disposal Works and to light the grounds.

Under Tax Collection Bylaws Nos. 862, and 885, taxes are payable in two installments, the first being payable by July 31st. A discount of 5 per cent. on the first installment (exclusive of Local Improvement Taxes) will be allowed if paid on or before June 30th. The second installment is payable on or before December 31st and a discount of 2½ per cent. will be allowed on this installment (exclusive of Local Improvement Taxes), if paid on or before October 1st, providing the first installment is already paid in full. A penalty of 8 per cent. will be added to all taxes outstanding on 1st of January following the year for which the taxes are levied.

Number of hydrants	515

LOCAL IMPROVEMENTS

When the owners of property abutting on any street or place desire the construction of any of the following local improvements, application should be made to the City Clerk for a form of petition to the Council for the work or improvement. Such petition must be signed by at least two-thirds of the registered or assessed owners of property abutting on the street or place where the work or improvement

is required, and representing at least one-half in value of such property; and on receipt of such sufficiently signed petition the Council may proceed with the work or improvement and assess the cost in whole or part against the property benefited.

If, in the opinion of the Council, any such work or improvement is necessary and in the public interest, it may direct that it be proceeded with unless a petition against said work or improvement signed by a majority of the owners of the property affected and representing at least one-half in value thereof, be received by the Council within two weeks after the last publication of the intention of the Council to undertake such work or improvement, which publication must be made once in each week for two successive weeks in some newspaper published in the City.

The term "local improvements" shall be taken to mean:

(a) The opening, widening, straightening, extending, grading, levelling, macadamizing, paving or planking of any street or public lane, alley, way or place; or

(b) The constructing of any sidewalk, which shall include any street crossing constructed in connection with a sidewalk, bridge, culvert or embankment forming part of a highway; or

(c) The curbing, sodding, boulevarding or planting of any street or public lane, alley, square or other public place; or

(d) The making, deepening, enlarging or prolonging of any common sewer or

water main and sewer or water service connections; or

(e) The constructing of any conduit for wires or pipes along any roadway, street, lane, alley, square or other public place; or

(f) The reconstructing (but not the mere repair and maintenance) of any of the said works during the originally estimated lifetime thereof; or

(g) The repairs and maintenance thereof after the lapse of the originally estimated lifetime thereof; or

(h) The erecting of ornamental street lighting standards; or

(i) The installing of high pressure water mains specially constructed for the purposes of fire protection.

It has been the custom of the Council to take advantage of the alternative provided by The City Act, and proceed by way of Notice of Intention, but such Notice of Intention has almost invariably originated with the reception of an insufficiently signed petition from adjacent property owners, which petition, although insufficiently signed and therefore not entitling the Council to proceed in accordance therewith, indicated a desire on the part of the property owners for the construction of such work or improvement.

The assessment of the cost of the several improvements is spread over the following terms:

Pavements	15 years
Sidewalks (concrete)	20 years
Sidewalks (plank)	5 years
Sewers	30 years
Water Mains	30 years

BUILDING RECORDS

Year—	Permits	Cost
1904	162	\$ 210,000
1905	346	750,000
1906	420	2,000,000
1907	480	1,177,840
1908	253	516,656
1909	282	749,479
1910	573	2,351,288
1911	959	5,099,340
1912	1,215	8,047,309
1913	1,141	4,018,350
1914	669	1,765,875
1915	113	464,065
1916	106	222,075
1917	179	416,460
1918	262	1,006,000

Of the permits issued during the period 1910-1914 to the value of \$21,282,162, some \$8,000,000 were expended in the erection of warehouses, factories, stores, business and apartment blocks, hotels and civic buildings. The remaining twelve million represents the investment made in residences, Colleges, Educational Institutions, Dance Halls, Moving Picture Theatres and other buildings.

BUILDING PERMIT FEES

Buildings where cost is less than \$500	\$.50
Buildings where cost is more than \$500 and less than \$2,000	1.00
Buildings where cost is more than \$2,000 and less than \$5,000	2.00
For every additional \$1,000 over \$5,00010
All alterations and repairs to buildings, fee same as new buildings.	

All removals of buildings	1.00
For lowering of trolley wires for removals, per wire, a deposit of	15.00
For use of sidewalk and street, per foot frontage per month.....	.10

POPULATION AS ESTIMATED

[illegible]

**ELECTRIC LIGHT AND POWER
DEPARTMENT**

The Electric Light and Power System is owned and operated by the City. This utility is not only self-sustaining but revenue producing.

Plant

The generating plant at the old Power House consists of four boilers aggregating 1,000 horse power.

One 450 kw. low pressure turbine generating unit.

Two 400 kw. direct current railway units, vertical engine type.

One 1,200 kw. motor converter, converting from 2,200 volt three phase to 600 volt direct current.

The old plant is used jointly by the Electric and Waterworks Departments as a sub-station and pumping station.

A new Power House has been completed, in which the following additional apparatus is installed:

Two 1,500 kw. high pressure turbine generating units and one 3,000 kw. high pressure turbine generating unit.

Six boilers aggregating 3,000 h.p. capacity with Riley mechanical underfeed stokers.

The plant is fitted with all the most modern labor saving devices.

Some 581 arc and 50 incandescent street lights are in use.

Rates

For energy used for light in one installation and registered on not more than three meters, by one consumer in one building:

A base or service charge of fifty cents per month per kilowatt connected load or per K.V.A. setting of consumer's circuit plus an energy charge as follows:

First 20 kw. hours at 7 cents per kw. hour.

Next 280 kw. hours at 6 cents per kw. hour.

Next 300 kw. hours at 5.5 cents per kw. hour.

Next 400 kw. hours at 5 cents per kw. hour.

Next 1,000 kw. hours at 4.5 cents per kw. hour.

All over 2,000 kw. hours at 4 cents per kw. hour.

For energy used for lighting installations of five kilowatts connected load or over during day or off peak hours:

First 1,000 kw. hours at 4 cents per kw. hour.

Next 1,000 kw. hours at 3.5 cents per kw. hour.

All over 2,000 kw. hours at 3 cents per kw. hour.

A discount of 10 per cent. will be allowed if paid within ten days.

Power

For energy used for power in one installation and registered on not more than three meters by one consumer in one month in one building:

A base or service charge of 50 cents per month per horse power of connected load or per K.V.A. setting of consumer's circuit breaker, plus an energy charge as follows:

First 20 kw. hours at 5 cents per kw. hour.

Next 280 kw. hours at 4 cents per kw. hour.

Next 300 kw. hours at 3.5 cents per kw. hour.

Next 300 kw. hours at 3 cents per kw. hour.

All over 900 kw. hours at 2.5 cents per kw. hour.

In all installations of 5 horse power connected load or over, day or off peak load use:

First 300 kw. hours at 3 cents per kw. hour.

Next 300 kw. hours at 2.6 cents per kw. hour.

Next 300 kw. hours at 2.25 cents per kw. hour.

Next 300 kw. hours at 2 cents per kw. hour.

Next 300 kw. hours at 1.75 cents per kw. hour.

All over 1,500 kw. hours at 1.5 cents per kw. hour.

Exterior lighting or signs over 1 kw. of demand classed as power service. Combination heating and lighting service, the first 20 kw. hours at 7 cents and the next 30 kw. hours at 6 cents, and all in excess of this is charged at one and one-quarter cents per kilowatt hour. The service charge remains the same on the lighting load, and the cooking utensils are rated at 30 cents per kilowatt per month demand of cooking range or utensil. This rate applies to permanent connections only.

A discount of ten per cent. if paid within ten days.

Special Energy Charge

Installations of 50 horse power of 50 kw. of demand or over, taking energy at 2,200 volts and not less than 90 per cent power

factor, and using full demand on an average of ten hours a day 30 days per month, the energy charge will be 1.25 cents per kw. hour for all energy metered. No discount.

Installations of 50 horse power or 50 kw. of demand or over, taking energy at 2,200 volts and not less than 90 per cent. power factor, and using full demand on an average of twenty hours per day 30 days per month, the energy charge will be 1.1 cents per kw. hour for all energy metered. No discount.

Special rates will be arranged on large services according to the conditions of the service.

Hours in which the low rate applies:

From April 1st to September 30th, from 12 midnight to 6 p.m.

During March and October from 12 midnight to 5 p.m.

From November 1st to February 28th from 12 midnight until 4 p.m.

Meters are furnished for all installations. Burned out lamps are renewed by the City and lamps sold at the Electric Department office, corner of Broad and Dewdney Streets.

Accounts are rendered monthly by the City Treasurer and are payable monthly. Ten per cent. discount is allowed on current light and power only if paid within ten days of account leaving the Treasurer's office. Commencing July 1st, 1918, ten per cent. was added to all accounts as a war measure.

In the event of non-payment of account connections are cut off within twenty

days after date of mailing, and a fee of \$1.00 charged for re-connection.

Applications

An application is positively required in every case of new tenancy, and the current will be disconnected without notice, when it has been found that an application has not been made.

All applications for energy, where installation is not new, are made at the City Treasurer's office. All applications for new installations are made at the City Power House.

Vacating Premises

Consumers when vacating premises are requested to notify the City Treasurer immediately, so that meter may be read and current disconnected.

Deposits

A deposit (schedule as under) is required to be made at the time of making application.

Light—

1 to 5 lights	\$ 2.00
6 to 20 lights	5.00
21 to 40 lights	10.00
41 to 60 lights	15.00

and an additional \$5.00 for every additional 20 lights or any portion thereof. Light means one sixteen candle power carbon filament lamp or one 50 watt Tungsten lamp.

Power—

1 h.p. motor or 1 kw. heating load \$ 5.00

1 to 2 h.p. or 2 kw. heating load 10.00

to to 3 h.p. or 3 kw. heating load 15.00
and an additional \$5.00 for each h.p. motor
or kw. heating load or fraction thereof.
One h.p. means the maker's rated h.p. of
motor, and 1 kw. of heating means the
maker's rated consumption of heating ap-
paratus.

Note—All meter readers and other em-
ployees whose duties require them to
enter premises of consumers are required
to wear a badge.

WATERWORKS

The Waterworks System is owned and operated by the City. The supply of water is obtained from springs and artesian wells in the valley of Boggy Creek, about 8 miles northeast of the City. A dam constructed across the Creek impounds about 100,000,000 gallons of water, which replenishes the Creek in times of drought. Forty-five wells have been sunk through clay to the water-bearing gravel bed found at an average depth of 100 feet. These wells overflowing and yield pure, sparkling water. Regina is in a unique position, as it is the only known instance of a large city deriving the bulk of its supply of water from overflowing artesian wells. A further number of wells will be sunk from time to time as requirements increase. The water is collected into the Barton Pump Well (270,000 gallons capac-

ity), and raised into the Tor Hill Reservoir by means of two 2,000,000 gallons per day Turbine Pumps driven by Oil Engines. Tor Hill Reservoir is a circular reinforced concrete construction. Has a capacity of 5,000,000 gallons and stands about 125 feet above the City level; it is 202 feet in diameter and the maximum depth of water is 25 feet. The spring water is conveyed by 15-inch vitrified pipe to the compensating basin, and thence by 10-inch Cast Iron Main to the City Pumping Station. The artesian well water gravitates from Tor Hill Reservoir to the City through 18-inch main. An additional 25-inch main will be laid to supplement the foregoing.

A new rectangular reinforced concrete reservoir is situated near the City Pumping Station. It is 150 feet long, 153 feet wide, and holds 21 feet of water, its capacity is 5,000,000 gallons.

The Compensating Basins have a capacity of 1,065,000 gallons.

There are installed at the City Pumping Station two $2\frac{1}{2}$ million gallon per day steam driven Pumps, which can be operated in parallel or in series and furnish a pressure of 60 and 120 pounds per square inch respectively. There are also two steam driven horizontal direct acting pumps, and two $3\frac{1}{2}$ mill steam turbine driven pumps which can be operated in parallel or in series.

The normal domestic pressure by gravity is 40 pounds per square inch; it can be increased by pumping.

The distributing system consists of two trunk mains 24 inches in diameter, and one 18-inch, with a Venturi meter on each line, the gridiron connections range down to six inches.

Rates as per Schedule in Bylaw 946

SCHEDULE "A"

Applicable to Private Houses Only

Size of House	Rate per month	Allowance per day	Allowance per month of 30 days
2, 3 and			
4 rooms	\$1.55	16 cubic ft.	480 cubic ft.
5 rooms	1.60	18 cubic ft.	540 cubic ft.
6 rooms	1.65	20 cubic ft.	600 cubic ft.
7 rooms	1.70	22 cubic ft.	660 cubic ft.

13 rooms	2.15	32.5 cu. ft.	975 cubic ft.
14 rooms	2.20	33.5 cu. ft.	1005 cubic ft.
15 rooms	2.25	34.5 cu. ft.	1035 cubic ft.
16 rooms	2.35	35 cubic ft.	1050 cubic ft.

Rate per 100 cubic feet for excess consumption over allowance 25c per 100 cubic feet.

The above monthly rates are payable in advance.

The monthly minimum rate will be charged whether water has been actually consumed or not.

SCHEDULE "B"

Applicable to all other Services

Consumption per month of 30 days	Rate per 100 cubic feet	Minimum charge per month
0 to 1000 cubic feet.....	23c	\$1.50
1000 to 2000 cubic feet.....	21c	2.30
2000 to 5000 cubic feet.....	20c	4.20
5000 to 10000 cubic feet.....	19c	10.00
10000 to 15000 cubic feet.....	18c	19.00
15000 to 22000 cubic feet.....	17c	27.00
22000 to 30000 cubic feet.....	15c	37.40
30000 to 40000 cubic feet.....	13c	45.00
40000 to 50000 cubic feet.....	12c	52.00
50000 to 70000 cubic feet.....	11c	60.00
70000 upwards	10c	77.00

Consumers may be required to make a deposit with the City Treasurer, this deposit to be sufficient to meet the estimated consumption of water consumed per month. The average consumption of the preceding three months will be charged whether water has been actually consumed or not.

SCHEDULE "C"

Applicable to Consumers who have stand pipes connected with the City's Water System on their own private property.
Rate per month, payable in advance..75c

SCHEDULE "D"

Applicable to Houses situated on Sewer and Water lines which are not connected with the City Water System.
Charge per month, payable in advance 50c

SCHEDULE "E"

Building and Construction Rates.

Concrete, per cubic yard.....	10c
Each 100 cubic feet in wall of rubble or coursed ashlar masonry.....	10c
Each 1000 Bricks.....	10c
Each 100 square yards of lime plaster	75c
Each 100 square yards of wood fibre plaster	25c

The above rates are payable in advance.

SCHEDULE "F"

Lawn or Garden Rates, applicable only to Consumers. Not charged on Meter Rates.

\$3.00 for first 1000 square feet, \$0.75 for each additional 1000 square feet.

The above rates are payable in advance.

Applications for water service or the turning off of water to be made to the City Treasurer at the City Hall.

Accounts are rendered from the City Treasurer's Office monthly and shall be due and payable when rendered, but if paid within ten days from the date on which same are mailed the user of water shall be entitled to a discount of ten per cent. When accounts are not paid within fifteen days from the date on which said accounts are mailed, the Superintendent shall disconnect the service and the water will not be turned on again until the arrears have been paid together with an additional charge of \$1.00 for re-connection.

Any change in occupancy or change in fixtures should be reported at one to the City Treasurer's Office.

Note—All meter readers and other employees whose duties require them to enter premises of Consumers are required to wear a badge.

PARKS

The area of land set aside for park purposes is about 257 acres and is valued with improvements at \$3,300,000.

Wascana Park—Having an area of about 45 acres and situated to the south of the City, has a frontage of about a quarter of a mile along Wascana Lake, which extends for nearly two miles east, and affords excellent facilities for boating, bathing and skating, of which full advantage is taken. A large Boat Club building is situated on the shores of the Lake; also a Boat Livery and Public Bathing House. A Band Stand occupies an appropriate position in the park. In winter a skating and hockey rink is maintained for the free use of the public.

This park, adjoining as it does the grounds of the Regina College, and being in full view of the Lake and Parliament Buildings, offers ample opportunity for development as an ornamental park, in the nature of a fine floral display to be inaugurated in the near future.

Victoria Park—Situated within two blocks of the City Hall and containing over seven acres. This plot is laid out in an ornamental scheme, an artistic fountain having been placed in the centre, while shrubbery and flowers are used to good advantage in beautifying it.

Alexandra Park—Is used as a children's playground, and is equipped with suitable gymnastic apparatus. It is proposed to lay out several other playgrounds in different parts of the city in a similar manner with a view to conforming as far as possible with the School Curriculum of Playground Teaching. Considerable importance is attached to the culture of trees, shrubs and flowers as a factor in moulding the character of children and every effort is now made to educate school children against the destruction of plants, trees and shrubs, which form the chief attraction of these playgrounds.

Stanley Park — During the season of 1915 was replanned and laid out in an appropriate form to suit the surroundings with new walks, flower beds, trees and shrubs. This Park forms an appropriate frontage for the Union Depot of the Canadian Pacific and Canadian Northern Railway Companies.

The Parks Department has under its care some 18¾ miles of Boulevards, which are seeded to grass and planted with trees.

Considerable improvements have been made at the Exhibition Grounds in the way of new roads and drives, etc., in order to relieve the congested traffic during the time the Summer and Winter Fairs are being held.

The Cricket Oval at the Exhibition Grounds has also been re-surfaced and kept in excellent condition.

Sports Grounds—Four of these are maintained in different sections of the City. These playfields are kept in good repair by dragging and rolling and the surrounding grass and weeds are kept short. These grounds are located as follows:

No. 1—Exhibition Grounds.

No. 2—Blocks 254 and 255 between Ninth and Tenth Avenues and Retallack and Cameron Streets.

No. 3—Blocks 330, 331 and portion of 329 between Victoria Avenue West and South Railway Street, Argyle and Princess Streets.

Nursery—The Nursery covers some 35 acres of ground, and is located east of Broad Street and North of Fourth Avenue. In these grounds there are now approximately some 92,000 young trees and shrubs and about 10,000 perennial plants.

There are also two Greenhouses and 75 hot bed sash, in which were grown during last season for transplanting to the various parks in the City, some 75,000 plants.

Considerable attention has been given during the last year or so to the question of a comprehensive scheme of Parks and Playgrounds, etc., and the noted City Planning Expert, Mr. C. H. Mawson, of Liverpool, England, has been engaged to formulate such a scheme and it would appear probable that steps will be taken towards outlining same.

SEWER SYSTEM

In 1910 a comprehensive sewer system was laid out to serve all the outlying parts of the City and work was commenced on the outfall arrangements and main trunk sewers in that year and has since been carried on to completion. The system is a modified separate system whereby all the sewage from the old City system and the domestic sewage from later extensions is conveyed to the Disposal Works and treated therein before discharging into Wascana Creek, while the drainage and storm water is conveyed separately to discharge at convenient points from the various districts served. \$870,000 has been spent on this work which is in such shape that it is only necessary to install the various branch sewers as they are required by the expansion of the City to serve any part of it. The system is capable of expansion to any degree that is desirable within the present City Limits and any part of the area has an outlet furnished for any branch sewers that may be necessary.

There are now installed throughout the City 69.6 miles of sewer, varying in size from 8 inches to 72 inches in diameter. The disposal works is designed so that it can be extended to be capable of treating 9,000,000 gallons of sewage per day by a sedimentation and bacteriological process that will render the effluent non-putrescent and unobjectionable to residents adjoining Wascana Creek below the City.

REGINA MUNICIPAL RAILWAY

The construction of the Street Railway as a Municipal enterprise was projected in 1910. Actual construction began in the early part of 1911 and operation of cars on same was commenced July 29th, 1911. At this time the system consisted of about 6 miles of track and 6 cars. At the present time there are about 30 miles of track within the City limits, 14¾ miles of this being in pavement. The rolling stock is as follows:

34 Passenger Cars.
 2 Sweepers.
 1 Snow Plow.
 1 Motor Haulage Car.
 30 Freight Cars.

The total expenditure up to December 31st, 1914, was \$1,723,830, of which \$266,065 was for cars and car equipment.

Operation statistics for the year ending December 31st, 1918, are as follows:

Revenue Passengers carried....	4,926,676
Transfer Passengers carried....	564,944

Total Passengers carried...	5,491,620
Passenger Car Mileage.....	920,126
Other Car Mileage.....	14,109

Total Car Mileage.....	934,235
Passenger Revenue	\$234,889.05
Other Revenue	13,748.71

Total Revenue	248,637.76
Operation Expenses	218,459.09

Operation Surplus	\$30,178.67
-------------------------	-------------

Passengers carried during the year show a small decrease compared with the previous year, but receipts increased over \$18,000.00 on account of the increased fares which became effective Feb. 10th, 1918. During the last quarter of the year riding was very light because of the Epidemic of Influenza.

Higher Labour and Power costs brought operating expenses \$17,000.00 over the previous year's figures.

The fares now effective are as follows:

5 cents cash

5 tickets for 25 cents

21 tickets for \$1.00

Children tickets 10 for 25 cents (for children over 5 and under 14 years)

Labour tickets 8 for 25 cents (good only on week days from 6 a.m. to 8 p.m.)

MUNICIPALLY OWNED INDUSTRIAL SITES SERVED BY SPUR TRACK SYSTEM

One of the greatest assets which Regina possesses from an industrial point of view is its splendid and unique spur track system. It would be practically impossible for any other city to duplicate this system because there is none that owns such a vast stretch of its town site as Regina does. Regina did not have to buy the land, consequently it could do it. To all outsiders we wish to explain that Regina, being the owner of hundreds of acres of its own townsite, conceived in

the early days of its settlement the idea of setting aside a section of it for purely industrial purposes. The idea was a good one. In the first place, it enabled Regina to establish conditions which proved very alluring to manufacturers and distributing houses. By reason of the fact that the city took its whole north section of some 320 acres and fully served it with spur tracks, it has today dozens of distributing houses and factories located there. This is what has made Regina the great distributing centre of the west. It matters not what the nature of the business, or by what railway the raw material is imported, or the finished product exported, the cars for unloading and loading are standing right at the shipping door of the warehouse or factory whenever wanted. There is thus the minimum of cost of handling all kinds of manufactured goods. It can be easily seen what an advantage this is to any person or company wishing to embark in business here. These track-age facilities are supplied without any initial outlay to the manufacturer or shipper. The system upon which this is done is as follows: The City lays out the blocks and pays for building the spur tracks; the Railway Companies supply the rails, and the City pays a rental to the Railway Companies for such rails. The City pays rental whether the spurs are in use or not. Then when the manufacturer or distributor has built his plant and commences to use the spur track he pays a rental to the City. Many miles of

these spur tracks are now in use, and many blocks are tracked and waiting for further users.

An additional advantage of this system is that it keeps all the manufacturing, etc., in one section of the City. This enables the Corporation to keep the rest of the City free from grime, dust and smoke. It is a good combination for the legitimate investor. He gets an opportunity to do a profitable business. It gives him a chance to compete; in fact it enables him to handicap men not so advantageously situated. At the same time it gives him a clean, attractive City to live in.

The property is also served by sewer, water, electric light and power and street cars. Many warehouses doing an extensive business have grown up in this model warehouse and manufacturing area. In 1912, some \$25,000,000 worth of business was handled, making the City by far the largest point of distribution for farm implements in the world. The wholesale distribution business amounted in 1913 to over \$40,000,000.

In order to insure that these warehouse sites will be developed when sold, restrictions consistent with the conditions set out in the applications are made whereby the prospective locators are required to develop the property within a stipulated period from the date upon which the property is acquired. The City Council has decided that the property may be acquired by prospective locators under either of the undermentioned plans. The City Commissioners have authority

to negotiate with interested parties but on the understanding, however, that every proposition must be finally submitted to the City Council for ratification:

1. The land may be sold at its assessed value on terms one-quarter cash, with balance in three equal yearly payments, with interest at 7 per cent.

2. The land may be sold by tender and in this case the prospective purchasers are required to set out in their tenders such considerations as may be apposite in every instance, such as the cash payments, the building improvements proposed and the number of employees to be maintained in the business to be established.

3. The land may be leased for a term of 49 years. In this case as conditions of the lease it is suggested that the rental be at six per cent. on the assessed value of the land, payable quarterly in advance; that the lessee be required to erect on the property, buildings to a reasonable cost for each 25 feet lot and to carry on business continuously; that there be two alternatives as to land valuation, namely, a fixed valuation or a provision for re-valuation every ten years; that provision be made for a remedy in case of default; that provision further should be made whereby at the expiry of the term the City could terminate the lease, but would be required to take over the building at proper valuation to be established if necessary by a Judge.

The property throughout this district has been taken up very fast with the corresponding rapid development, thus

demonstrating that business men, looking for sites for their various industries, appreciate the advantages offered to them by the City in this regard.

All applications regarding this property should be addressed to the City Commissioners who will gladly furnish any information required in connection therewith.

(See also pages 14 and 15.)

BANKS IN REGINA

Bank of Montreal — A. F. Angus, Manager.

Bank of Nova Scotia — E. F. MacNeil, Manager.

Canadian Bank of Commerce — A. W. Ridout, Manager.

Dominion Bank — John Snow, Manager.

Imperial Bank of Canada — J. A. Wetmore, Manager.

Merchants Bank — J. J. Galloway, Manager.

Royal Bank — W. G. Yule, Manager.

Sterling Bank — H. Y. Complin.

Standard Bank — J. H. N. Morgan, Manager.

Union Bank of Canada — O. F. Seeber, Manager.

Bank of Hamilton — M. W. Morton, Manager.

REGINA CLEARING HOUSE ASSOCIATION

Managing Committee for 1919.

Messrs. A. F. Angus, A. W. Ridout, J. A. Wetmore and O. F. Seeber. Secretary—
W. B. E. Reade.

There are 11 Banks in Regina and all

were members of this Clearing House prior to 1915, except the Bank of Hamilton, which commenced business in Regina in January, 1917.

Total clearings for the year 1918 were \$184,624,631.76, as compared with the year 1917, \$169,800,113.01, as compared with the year 1916, \$124,349,589.81. For clearings back to the year 1910, see page 12.

POLICE DEPARTMENT

The Police Force and Department are under the control of the Board of Police Commissioners, consisting of the following:

H. Black, Mayor (Chairman).

His Honor J. W. Hannon, Judge of the District Court.

J. H. Heffernan, Police Magistrate.

The Police Force consists of a Chief, two Inspectors, three Detectives, two Sergeants, three Patrol Sergeants, two Patrol Drivers, twenty-four Constables, Police Court Clerk, Chief Constable's Clerk and Police Matron.

Clerk to Police Commission — George Beach, Phone 3615.

Police Magistrate—Mr. J. H. Heffernan, Phone 3221.

Chief Constable — M. J. Bruton, Phone 5366.

POST OFFICE

The Customs and Post Office Block completed in 1909 at a cost of \$250,000, is a handsome structure, and in every respect one of the best equipped buildings of this character in the three Prairie Provinces.

POSTAL REVENUES

The amount of revenue collected at Regina was as follows:

	Postal Revenue	Postal Notes Paid
1906	\$ 41,629.99	\$ 38,752.53
1907	54,130.17	33,989.37
1908	66,483.73	33,421.56

No. 2 Corps — Scarth Street North — Captain Saunders, Commanding Officer. Lieutenant Stirling, Assistant. Naval and Military Work, Adjutant Richardson, Secretary (pro tem.)

PARLIAMENT BUILDINGS

The erection of the Parliament Buildings was commenced in the fall of 1908, and the departmental offices were occupied in November, 1910. The building is constructed of Tyndall stone, fireproof throughout, and was erected by Peter

Lyall and Sons, of Montreal, at a cost of approximately \$1,900,000, and the architects were E. and W. S. Maxwell, of Montreal. An independent Board of Architects was appointed as a commission to examine the competitive plans submitted by a chosen number of prominent firms, the chairman of which was Prof. Percy E. Nobbs, Professor of Architecture in McGill University, Montreal, resulting in the selection of the plans of E. and W. S. Maxwell.

The grounds, which are approximately 160 acres, are immediately south of Wasicana Lake, and are now within the City limits.

The length of the building is about 543 feet, and the height of the dome approximately 187 feet; the central portion is 98 feet in width and 267 feet in depth, with a wing on either side 222 feet long and 72 feet in depth.

The building has its own power house which furnishes heat and power for lights, operation of elevators, electric fans, etc.

PROVINCIAL NATURAL HISTORY MUSEUM

The Museum is located at the Normal School, Sixteenth Avenue. Over 400 mounted specimens of birds and animals are displayed in suitable glass show cases. Also collection of moths and butterflies, Indian curios, fossils, etc.

Hours: Week days from 9 a.m. to 5 p.m., except Saturday, when the hours are from 9 a.m. to 1 p.m.

Curator—F. Bradshaw. Taxidermist—H. Mitchell.

SASKATCHEWAN GOVERNMENT

Lieutenant Governor—Sir Richard Lake,
K.C.M.G.

EXECUTIVE COUNCIL

Premier, President of Council and Minister of Education—Hon. W. M. Martin, K.C.

Attorney General—Hon. W. F. A. Turgeon, K.C.

Minister of Public Works—Hon. A. P. McNab.

Minister of Municipal Affairs and Minister of Agriculture—Hon. George Langley.

Provincial Treasurer, Minister of Railways and Minister of Telephones—Hon. Chas. A. Dunning.

Minister of Highways—Hon. Samuel J. Latta.

Provincial Secretary—Hon. W. E. Knowles.

Provincial Officers

Clerk of Executive Council—J. W. McLeod.

Clerk of Legislative Assembly—G. A. Mantle.

Legislative Counsel—R. W. Shannon, K.C.

Legislative Librarian—John Hawkes.

Deputy Minister of Education—Augustus H. Ball.

Deputy Minister of Agriculture—F. Hedley Auld.

Deputy Attorney General—T. A. Colclough, K.C.

Prof. Willing.
Prof. Wilson.
Registrar, A. R. Weir, B.A.

The University offers courses leading to degrees in Arts, Science, Agriculture, Law, Civic Engineering, Accounting and Pharmacy.

REGINA COLLEGE

The promoters of Regina College have had in mind the enrichment of the citizenship of the West by an educational institution calculated to meet necessities for which adequate provision had not previously been made in the Province.

In the Academic Department students are prepared for teacher's certificates, for University Matriculation, and the first year in the Arts course of the University. In the Preparatory Department a special effort is made to assist the thousands throughout the West, who, on account of frontier conditions, have not been able to get a complete elementary education. This course is designed to fit students for Grade VIII Examination or to give them a start in the Matriculation Course.

In the Conservatory of Music provision is made for a full and varied curriculum

leading to musical degrees granted by the McGill University.

A full Commercial College is part of the Institution. This Department affords to its pupils the advantages of a wider association with College men and women, and with the faculty of such a body. In connection with the Commercial Department there is given a course in Business and Agriculture especially planned to help farmers' sons. Courses in Household Science and Dressmaking are provided.

Arrangements are also made for the teaching of elocution and a well outlined course in this subject has been provided.

Officers

President—Rev. E. W. Stapleford, B.A.
D.D.

Chairman of Board—Chief Justice J. T.
Brown.

First Vice Chairman—His Honor, Judge
Hannon.

Florence R. Tutt, A.C.S.E. Teacher of Expression. Associate of the Conservatory School of Expression, Toronto University.

ST. CHAD'S COLLEGE

The Theological College for the Diocese of Qu'Appelle is situated on Sixteenth Avenue. Fifteen acres of land were purchased from the Provincial Government, on part of which the College is built. It is a very handsome structure of red brick with terra cotta dressings. The building which includes a Warden's residence in the east wing and the College Chapel in the west wing is a free rendering of the English College style. There is room for thirty resident students besides the staff and servants. It is one of a group of buildings which the Anglican Communion hopes to erect on the site purchased from the Government. The Synod and Clergy houses have also been built on this site.

The Venerable Archdeacon Dobie, D.D., Warden of the College.

The staff includes: The Rev. C. J. S. Stuart, M.A. (on active service); the Ven. Archdeacon Knowles, LL.B.; the Rev. F. Stanford, A.K.C.L.; Ven. Archdeacon A. E. Burgett, M.A.

The whole of the west wing of the College has been handed over to the Hospitals Commission for use as a Convalescent Hospital for Returned Soldiers.

The Commission took over the College on February 1, 1916, and is to have the use of same for the duration of the war and a year after if it is deemed advisable. The College retains the use of the Warden's house and the rooms in the east wing of the College, as well as the chapel.

REGINA PUBLIC LIBRARY

The Regina Public Library is under the control and management of a Board appointed by the City Council, as provided by The Public Libraries Act of the Province.

BUILDINGS

Central Library—Lorne Street, opposite Victoria Square.

Albert Branch—Eighth Avenue, Northwest.

Eastern Branch—Halifax Street, Market Square.

Scott Street Branch—Cor. Scott Street and Sixth Avenue.

HOURS

Central Library

Week days, Circulation Department and Reading Rooms, from 10 a.m. to 9 p.m.

Children's Department

Every school day from 12 noon to 1.30 p.m., and from 3 p.m. to 8 p.m., and on Saturdays and all school holidays (except those next mentioned) from 10 a.m. to 8 p.m. Story hour on Saturdays during winter months, 11 a.m. to 12 noon.

Reference Department

Week days only from 10 a.m. to 11.45 a.m. and from 1 p.m. to 6 p.m., from 6.30 p.m. to 9 p.m.

Branches

Scott Street Branch 4 p.m. to 9 p.m.
2 p.m. to 6 p.m. and 7 p.m. to 9 p.m.
Children not admitted after 6 p.m.

The Reading Rooms of all buildings are open on Sundays (for adults only) from 2 p.m. to 5 p.m.

All library premises are closed on the following public holidays: Christmas Day, Good Friday, Victoria Day, Dominion Day and Labor Day.

Any reputable resident of the City may become a borrower of books from the Circulation Department by filling up an application form (to be obtained at the Library) and if not a ratepayer, that is, one who pays taxes on business property or income, having the same properly endorsed by a ratepayer.

Vacation libraries, put up in a convenient carrying case, are issued to families

of residents of the City while spending the holidays at summer resorts in the Province. Special application has to be made for this privilege. These libraries are available between the 15th of June and the 30th of September.

Each member of a family of eight years of age or over may obtain library privileges on the above conditions.

Transient visitors to the City may obtain books by making a deposit of \$3 and obtaining a "Transient Borrowers" ticket at the Central Library.

REGINA LIBRARY BOARD

Chas. Nivins, B.A. (Chairman); Miss E. D. Cathro, B.A. (Deputy Chairman); Alderman F. G. England, Messrs. J. W. Smith Eddy, F. B. Reilly, His Worship the Mayor (ex-officio).

Chief Officials

Chief Librarian—J. R. C. Honeyman.

Chief of Circulation—Miss M. J. Mac-Ivor.

Librarian, Albert Branch — Rev. W. M. Fleming.

Librarian, Eastern Branch—Vacant.

Librarian, Scott Street Branch — Frederick Childs.

Reference Librarian—F. Laubach.

Children's Librarian—Miss M. Morton.

Cataloguer—Miss E. A. W. Pithie.

Treasurer—J. H. Menzies.

Board of Directors

Mrs. M. Cornwall, Mrs. J. Franks, Mrs. J. F. Bole, Mrs. J. F. Robinson, Mrs. P. M. Anderson, Messrs. T. M. Molloy, J. A. Allan, W. J. Allison, J. Strathdee, J. L. McKillop.

The new home is situated on Winnipeg Street, between Fourteenth and Fifteenth Avenues. Mr. T. H. Collier is Superintendent, Mrs. T. H. Collier is Matron and they are assisted by a staff of five.

During the past year two hundred and fifteen children were taken into the home.

The House is supported largely by voluntary contributions. The Alexandra Club by a sale of violets at Easter greatly assisted in carrying the financial burden

of the Home. The Government also pays a grant to defray the expenses of children who are brought in from outside the City of Regina.

95th Saskatchewan Rifles

Now under process of re-organization.

Officer Commanding—Lieut.-Col. J. F. L. Embury, now Brigadier General.

BIRTHS, MARRIAGES AND DEATHS

The securing of a complete and accurate record of all Births, Marriages and Deaths occurring within the City is a matter of the most vital importance to the individual and the community. Such a record is of the greatest value as a means of determining the City's growth, of compiling accurate birth and death records and of securing the legal and personal rights of the individual. Citizens generally should bear in mind that the unregistered child has no existence in the eyes of the law. It is the first duty of the parents to safeguard the rights of their children by the prompt registration of births.

The following are the principal regulations governing registrations:

All births and marriages must be registered at the office of the Department of Health within 30 days from the occurrence thereof.

Deaths must be registered at the same office before a permit to bury can be obtained.

Parents, guardians or occupants of dwellings where births occur are required to register births.

Clergymen officiating are required to register marriages.

Physicians attending are required to certify as to deaths.

Neglect or failure to report births, marriages, deaths or burials renders parties liable to a fine not exceeding \$50.00.

LICENSES

License Inspector—S. Lyne.

Office Phone—3614.
